PROFILE

Highly skilled and creative Frontend Developer with a passion for crafting exceptional user experiences. Proficient in modern web technologies and frameworks, I specialize in translating design concepts into fully functional and responsive websites. With a strong eye for detail and a dedication to delivering pixel-perfect results, I strive to create intuitive and visually appealing interfaces that engage users. A collaborative team player with excellent problem-solving abilities, I thrive in dynamic environments and enjoy staying up-to-date with the latest industry trends and best practices. Seeking opportunities to contribute my expertise and make a meaningful impact in a forward-thinking organization.

PROJECTS

Personal Website: www.ashbie.tech (for additional information)

Jour-Par-Jour | [Demo](#) | [Github](#)

- Architected and implemented the back and front end
- Used the Ant-Design design framework
- Incorporated persistent data storage using MongoDB.
- Built and incorporated a GraphQL API as the web app's server.
- Utilized Google's People API so as to delegate authentication to Google.
- Utilized: AntDesign, React, GraphQLAPIs, Apollo, Node.js, TypeScript, Geolocation.

WORK EXPERIENCE

Frontend Developer Intern

Squarefeet

March 2023 - April 2023

- Developed and maintained frontend components for Squarefeet's leasing management CRM, enhancing the user interface and overall user experience.
- Collaborated with a team of professionals to implement new features and improve existing functionalities.
- Utilized Vue.js, Vuetify, and Vite to build responsive and interactive web applications.
- Learned and applied Vue.js framework to create dynamic and scalable frontend solutions.
- Leveraged Vuetify to implement consistent and visually appealing UI components, ensuring a seamless user experience.
- Utilized Vite build tool for efficient development and deployment processes.
- Worked closely with backend developers and designers to integrate frontend components with backend APIs and ensure smooth data flow.
- Participated in code reviews and conducted testing to ensure high-quality and bug-free code.
- Contributed to the development of new features, UI enhancements, and performance optimizations.
